Temp Accuracy

NOVAMED-USA baby-sensitive thermistor sensor guarantees temperature reading sensitivity with a stable, highly accurate measurement. Molded plug assembly provides direct connection to the neonate/ incubator/ infant warmer, eliminating the need for interface cable.

Sensor Safety

Flexible 66" lead wire facilitates sensor placement on the infant further ensuring precision and safety.

Ease of Use

Packaged individually in a Tyvek pouch with replacement disc cover

Substitute for

Atom Medical #60884 and connector (Disposable) / NF-023
